

GOLD DUST is better than soap and elbow grease for pots and pans. It digs deep into cracks and corners and sterilizes everything it touches

There is nothing about the kitchen which collects so much dirt, grease and grime as pots and pans; and there is nothing that will clean them so quickly, easily and thoroughly as GOLD DUST.

GOLD DUST cleanses until the last evidence of dirt has gone, and removes every trace of germ life.

You are probably not aware that pots and pans which are used constantly contain hidden nests of little wigglers—germs of putrefaction and decay. GOLD DUST removes these, because it sterilizes as well as cleans, and leaves your utensils clean, pure, wholesome, safe.

GOLD DUST will work wonders in cleansing and polishing milk cans, pails, bottles and dairy utensils, pots, pans and kettles.

INCENTIVE TO THE PYTHIANS

Fortieth Anniversary Yields Good Results for the Order.

WILL STIMULATE MEMBERSHIP

Total Cost of the Big Celebration, It is Hoped, Will Not Go Over the Five Thousand-Dollar Mark.

Believing that the celebration of the fortieth anniversary of the founding of Pythianism in the west will not only result in activity in the Knights of Pythias organization, but also in renewed life in other secret societies, the grand lodge officers look back to the successful anniversary meeting on Monday with a feeling of satisfaction and pride.

"The purpose of the anniversary celebration was to give a boost to all secret societies and our own organization in particular, and I am sure that we accomplished our purpose," said Grand Chancellor John C. Cleland at headquarters in the Loyal hotel Tuesday morning. "The prime nature in the meeting was to inject new life into the order in the west, though it was also to give proper recognition and prominence to the honor due Omaha and Nebraska for organizing the first western lodge. As far as reviving the lodge that needed any, that certainly was accomplished if the attendance Monday and the enthusiasm shown by the thousands who came is any criterion. And now I am sure that there is not a Knight of Pythias living who does not know that Nebraska had the courage forty years ago to organize the first lodge west of the Allegheny mountains, jumping clear across Ohio, Illinois, Iowa and other state out here to the then barren plains of the remote west."

Most Certainly a Success.

"The celebration was most certainly a success from every and any standpoint." The trustees of the grand lodge of Nebraska and the grand lodge committee having the anniversary celebration in charge, the committee being composed of Grand Chancellor Cleland, Grand Vice-Chancellor Denny and Grand Prelate Chase, are checking over the accounts today, but are unable as yet to determine the financial status. Mr. Cleland said that it was the original hope to keep the cost of the celebration within the \$5,000 mark. The bringing of the Iowa team from Dayton, O., however, cost a snug sum, even though the expenses only of these men were paid, and the others may be found to have gone beyond \$5,000.

The Iowa team will leave Wednesday morning in its special train for home, the members wishing to remain over a day to view the city. This is the fourteenth city the team has visited, but never has it been so far west. For this reason, the team from Ohio wanted to see what a western city looks like. Local knights acted as guides and the visitors were shown the packing industry in South Omaha, the Union Pacific shops, the smelters, parks and boulevards and other places of interest. The Iowa team has visited the following cities: Chicago, Indianapolis, Minneapolis, Columbus, Toledo, Boston, Richmond, Cleveland, Pittsburgh, Buffalo, Hamilton, O., and Marion, O.

Prizes are Awarded.

Three prizes have already been awarded, but others can not be awarded until the committee has done its figuring. The latter are prizes offered the lodge which sent the largest number of candidates from the greatest distance, the number of candidates to be multiplied by the number of miles traveled, and the prizes to go to the three highest.

The first prize for the largest number of candidates for the grand lodge, the grand lodge outside of Omaha and Council Bluffs, was awarded to Triumph lodge, No. 22 of Fremont, which sent forty-eight candidates. This prize was \$125 purse. The second prize, \$75, was awarded to Longfellow lodge, No. 88 of Hooper, with twenty-eight candidates. The third prize, \$50, was awarded to Lincoln lodge, No. 3, of Lincoln, which sent eighteen candidates.

BARBERS MUST BE GOOD

Alderman Zimmerman's Resolution on Conduct of Shops Wins in Committee Meeting.

The city ordinance requiring all barbers to be proficient in their trade, to know the common diseases of the skin and the prevention of contagion, to have no infectious diseases themselves, and to maintain their shops in a sanitary condition, will remain in force and effect. This was decided by the adoption of a resolution presented by Councilman Zimmerman in the meeting of the council committee of the whole Monday afternoon.

At the last meeting of the council the master barbers presented a petition asking that the ordinance be repealed. The matter was referred to the committee of the whole and when brought up for discussion Monday afternoon both supporters and objectors appeared to argue it. Alderman Zimmerman, Harry Whitmore and Henry Phillips talked against the ordinance and for the repealing of the provision, while President L. V. Guey of the Central Labor union and others talked for the retention of the ordinance. Mr. Guey maintained that the ordinance should remain in force, not much for the sake of the barbers as for the safeguarding of the public, and after heated argument the petition was placed on file and the Zimmerman motion adopted.

The council decided to employ W. J. Connel and Will Herdman to prosecute the Armour company, on a contemptuous fee, and to endeavor to recover for the city \$15,000 paid to former Mayor George P. Bemis for personal injuries received in the falling of a billboard on Farnam street some five years ago. The two attorneys represented Mr. Bemis in the action and won the case against the city, but in the trial of the suit discovered evidence which they believe places the responsibility on the Armour company. This evidence they declined to divulge, but offered to use it in action against the company on the part of the city.

E. W. Dixon applied for permission to erect a two-story frame building, covered with corrugated iron, within the fire limits, at Eighteenth and Marcy streets, the building to cover a ground area of 50x100 feet. While the council has granted many similar permits it decided that the practice was erroneous and declined the permission. Joseph Redman appeared before the council and on his request the council decided to present a petition to the Omaha & Council Bluffs Railway company asking that it extend its Sherman avenue car line from Commercial street one mile north to Gust street, for the accommodation of some 500 residents of North Omaha. Mr. Redman wanted the council to pass an ordinance ordering the street railway to build the line, but this the council has not the authority to do.

FIRST BARE-PATED SOUL

Being a Little Dissertation on the Pioneer Bald-Head.

NEW HAIR CROPS FOR OMAHANS

Nebraska Is in the Thick of a Movement That Is Restoring to Prematurely Gray Heads the Color of Youth.

Just when the first bald-headed man trod over the pig, is not a event chronicled in the world's history. Baldness with some people is hereditary. There is no more chance of putting a new crop of hair on bald heads of that sort than there is to grow roses in a gravel pit. Dr. Nott, however, with his Q-ban Hair Restorer, has made it possible for thousands of bald-headed men to stop the loss of the hair that remains and to restore to thousands of others, hair that was lost through seborrheal eczema. The record of hair crops to the credit of this Q-ban Hair Restorer is phenomenal. This is really a wonderful preparation. It is not a hair dye, but it acts as if it was dipped from the Fountain of Youth. Old, faded, gray hair is restored to the natural color of earlier days.

This is no empty claim. It is backed up by a guarantee as good as money in the bank. If three bottles of Dr. Nott's Q-ban Hair Restorer—used as directed—do not restore color to hair so treated, and druggists of whom you bought the magical preparation will give you back every cent you paid for it. One bottle can be had free. These druggists are not philanthropists. They are fortified in this offer by the great Tennessee house of Heisk-Elis Co., Memphis, who control all the valuable formulas of Dr. Nott, whose triumphs in medical science are part of the story of the South. Dr. Nott's Q-ban Hair Restorer will not only restore natural color to hair, but is guaranteed to enable you to keep the hair you have and provide you with a lovely, luxuriant, silken head of hair.

It is a delightful hair dressing—a most valuable addition to anybody's toilet—woman or man—and can be had on your money-back-plan at The Myers-Dillon Drug Co. drug store.

ENDORSEMENT GAME WORKED

Joe Butler Has Own Little Political Club Boost Him for State Oil Inspector.

Joseph Phillip Butler, the uncrowned king of the Eighth ward democracy, was endorsed by the eighth ward democratic club, which club, by the way, Joe keeps stowed away in his left lower vest pocket. The king made his followers a speech, told them that if he was oil inspector that their kerosene lamps would give as much light for the electric arc, and their gasoline stoves would give forth more heat than the most modern gas range. The endorsement came so quick he could not have stopped it, even if he would.

The Third Ward Democratic club has also gone into the endorsing business, but its favorite is Dan Connell. Mr. Connell wants to be state labor commissioner.

BOY BURGLAR NOT NORMAL

Physician Whose House Ralph Neville Entered Says Youth Weak-Headed.

"Judge, I think I was off in my head, I must have been dinky when I did it." This was the explanation made by Ralph Neville, an 18-year-old boy, to Judge Sears as to why he entered the houses of Victor B. Gould and Dr. C. A. Hull. He pleaded guilty to a burglary charge, but insisted he was not in his right mind when he entered the houses. He was caught by Dr. Hull, who returned home from Denver to find him occupying his house alone. In his coat were a bottle of chloroform and an ammonia gun. Dr. Hull said he did not consider the boy quite normal mentally and Judge Sears decided to investigate the case before sentencing him.

PLUMBER SUED BY WIFE

Mrs. Lavina Overbay Asks Divorce Following Quarrel in Which Dishes Fly.

After one year of married life, Mrs. Lavina Overbay is in divorce court asking for a separation from John T. Overbay, a plumber, asserting that he knocked her down, choked her and called her vile names. Mr. and Mrs. Overbay were taken into custody by the police Monday. During a family quarrel Sunday morning at breakfast, it is charged, Mrs. Overbay threw a pot of coffee at her husband and he retaliated by hurling a jar of jam at her. Both were released after divorce proceedings had been decided upon. In her petition she says her husband is worth \$10,000 and has an income of \$150 a month. She asks for alimony.

CORN COMES FROM MEXICO

Specimens Are Sent to the National Exposition.

MORE ENTRIES FOR PREMIUM LIST

President Diaz and His Agricultural Disciples Are Lending Hearty Co-operation to the Great Show.

Entries for the premium list of the National Corn exposition are pouring in daily by the hundred, and this is well, for with 5,000 or more firms, companies and individuals to take a joke. But Mexican corn is not as far advanced as American and this is one of the reasons that country is working so enthusiastically for the National Corn exposition, the Mexicans being ambitious for their country's agricultural welfare to an extraordinary extent.

Viewing in enthusiasm with the disciples of Diaz are the Junior Corn associations of Nebraska and Iowa. Forty thousand ears of corn will be sent by the Iowa Junior and this will be the largest single exhibit from the Hawkeye state. Grains in this state stands to bear off the honors for the largest junior entry, the boys and girls working under the direction of Principal A. E. Hildebrand, having prepared an exhibit of seventy-five to 100 varieties of corn and small grains.

Oratorio Society to Sing

The triumph of King Corn will be sung by the Oratorio society of Omaha as well as sung out in fanfare of trumpet and blare of bugle by Green's band and chanted by the University of Nebraska and other college choir clubs. The Oratorio society has been engaged for at least two appearances during the progress of the National Corn exposition. The engagement has been concluded by President G. W. Wattles.

On the evening of the second day of the exposition will be given a program of music by the Oratorio society which will include selections from the "Hallelujahs" of Handel and from Haydn's "Autumn Song," that are especially appropriate to the occasion. This music is especially bright and joyful, is sung in praise of the corn, and is a most fitting accompaniment to the agricultural implement department. There would be a magnificent congregation if all tried to crowd in at the end. It is well for the early entrants also, for to some extent, quality of display position assigned, must depend on the date of arrival. More simply expressed—"first come, first served."

The first foreign exhibit to arrive is that of a shipment of seventy ears of Mexican soft corn, sent by Lic. Luis Gorgepe of Mexico City. This corn is still in the shock that recently might have no chance at the kernels while in transit. This variety of corn is much older in evolutionary way than the best American dent corn, although it is improved over the maize raised in the time Cortez taught the Aztec princes how of feasting and good cheer, written by two of the world's greatest masters, representative of the classical and of the most advanced modern schools of choral composition.

A program of sacred music may be given for Sunday afternoon, December 13. This program will be presented by the Oratorio society, and will consist largely of selections from the most popular of all the great choral masterpieces, the great oratorio of popular music, Handel's "The Messiah."

"23" FOR SALOON KEEPERS

That Number of Indictments Returned on Twenty-Third Day of Month by Grand Jury.

Twenty-three indictments on the twenty-third day of the month against saloon-keepers, druggists and keepers of houses of ill fame for alleged illegal sales of liquor, were returned by the county grand jury yesterday. The saloon keepers were all charged with selling liquor on Sunday; the druggists with failing to keep a register for the recording of liquor sales, and the keepers of houses of ill fame for selling without a license. Some of the indictments are against Omahans and some against those operating saloons outside the city. Among the druggists caught are, Preston B. Myers of Myers-Dillon company, J. H. Merchant and Frederick Arnold, George McArde, William Silk, Leon Levy, William Hartman, William C. Paulsen, William Burke, Mrs. L. Burke, Max Grim, Charles Palmig and Frank Sauer are in the list of saloon keepers.
